The River Torrens Linear Park Trail is a two-way walking and cycling path that travels from the Adelaide foreshore to the coast, passing through the Adelaide CBD. The linear park is the first of its kind in Australia, providing an oasis in the city and offering opportunities to interact with native wildlife and experience nature in the city.

Footbridges are located at regular intervals along the route, allowing users to walk or cycle safely along the trail and back to their starting point. If you are cycling the trail from further afield, check out the Bicentennial Trail or visit www.sa.gov.au/cycling.

A TRAIL FOR EVERYONE

The trail is ideal for all ages and abilities, with many facilities including playgrounds, rest areas, and interpretive information signs. Many sections are accessible by public transport or by car, with parking facilities available along the trail.

The trail is approximately 10 kilometers long, and information about each end of the trail is available online at www.adelaidemetro.com.au. For further information, contact the Passenger Transport Information Line on 1800 72 160 or visit the website.

FACILITIES

A map of the trail is provided, showing the location of playgrounds and rest areas along the way. You can access the map online at www.sa.gov.au/cycling, or download the Bicentennial Trail brochure for more information.

Pack a picnic, feed the ducks, or enjoy a stroll along the trail and enjoy a great day out in the city.
