

27. Waterfall Creek Hike

Follow the trail from the car park down the valley to the creek. Stepping stones lead you up a small winding trail through sheoak trees, to a lookout with spectacular views of a winter waterfall. The sheoaks provide a valuable food source for the elusive, endangered Glossy Black-Cockatoo.

Access

This hike begins in the car park in the Western River Wilderness Protection Area, off Colmans Road. Refer to pages 26-29.
