## Map of Mount Magnificent Summit Hike Loop

Detailed trail directions are available at <http://bit.ly/wsa-id-593>

### Directions:

1. Enter Mt Magnificent Conservation Park on the Heysen Trail.
2. At the junction, which is in the gully, where the 'Mt Magnificent Summit' sign is, turn left.
3. Exit Heysen Trail by turning right, following parallel to road, there is no trail here but it's easy enough to stay inside the fence. If the grass is longer, walk along the dirt road.
4. Where the double fence begins, and the country opens up to farming land, turn right, following the trail uphill (this is a road reserve, hence the double fence).
5. About half way up to the summit, you'll notice a trail go off to the right. This is the trail you will return on, taking you to the north and down the gully back to the junction at the 'Mt Magnificent Summit' sign.
6. At the Mt Magnificent Summit there is a stone cairn. Return down hill, watching out for the return trail to the north (now on your left)
7. Follow the trail back to Point (2), which is the gully with the junction and the 'Mt Magnificent Summit' sign.

Return downhill along the trail to Point (1) and the start of the hike.
